Profile

Full Stack Engineer with 5 years of experience building production-grade web apps across startups and enterprises. Tripled activation rates at SalesRobot with an AI-powered onboarding flow, and independently built two live, monetized products. Strong in MERN stack, real-time systems, and AI integrations.

Skills

- **Frontend:** HTML5, CSS3, JavaScript, TypeScript, React, Nextjs, Redux, React Router, Tailwind CSS, SEO, SSG, SSR
- **Backend:** Node.js, Express.js, REST APIs, Websocket, JWT, SQL, NOSQL, MongoDB, PostgreSQL, OpenAI SDK
- **DevOps & Deployment:** AWS, Azure, DigitalOcean, Heroku, Netlify, Vercel, MongoDB Atlas, Docker, Nginx, CI/CD
- **Tools:** Git, GitHub, BitBucket, Jira, Trello, VS Code, Postman, NPM, Linear, Claude Code, Ollama, Notion.so, Draw.io

Experience

- **Independent Developer** – Full Stack Engineer (*Ahmedabad, India | Mar 2025 – Present*)
 - Designed and launched **ViralVision**, a monetized AI image platform with thumbnail generation, upscaling, and editing, integrating Nano Banana 2 API, JWT auth, and credit billing system
 - Built and published **Content Curator**, a Chrome extension for YouTube analytics featuring channel/video tracking, bookmarking, group management, CSV export, and MongoDB-backed cloud sync.
- **Indecab** – Full Stack Engineer (*Mumbai, India | Jun 2024 – Mar 2025*)
 - Reduced legacy code issues by 40% by migrating multiple Meteor modules to the latest version, improving system reliability and cutting new developer onboarding time.
 - Built a Help Center CMS with modular React components, replacing ad-hoc documentation and standardizing content management across the support team.
- **Visilean** – UI Developer (*Ahmedabad, India | Feb 2024 – May 2024*)
 - Revamped dashboard responsiveness across desktop, tablet, and mobile, improving user satisfaction scores for field-based construction planning teams.
 - Integrated WebSocket-based real-time data updates by consuming dynamic APIs, increasing dashboard refresh efficiency by 50%.
- **SalesRobot** – Full Stack Engineer (*New Delhi, India | Sep 2022 – Jan 2024*)
 - Tripled product activation rate from 11% to 35% by building **SalesGPT**, an AI-powered chatbot that guided new users through core features contextually, improving onboarding completion and trial-to-paid conversion.
 - Reduced time-to-feature access by 60% by redesigning key user flows and consolidating high-usage tools into a unified interface.
- **Capgemini** – Software Engineer (*Bangalore, India | Jun 2021 – Sep 2022*)
 - Built a reusable React component library (calendar, tooltip, map markers) for P&G's internal enterprise tools, adopted across multiple modules and reducing UI inconsistency across teams.
 - Delivered data visualization and workflow enhancements on enterprise planning tools in direct collaboration with P&G's internal stakeholders.

Education

- Likhdirji Engineering College, Morbi – BE in Chemical Engineering

Certificates

- [Agile Software Development](#) – University of Minnesota
- [AWS Certified Developer Associate](#) – AWS
- [Cloud Application Development Foundation](#) – IBM
- [Version Control with Git](#) – Atlassian University

Projects

- **Viral Vision** – AI powered image platform for thumbnail generation, upscaling, and editing with consistent characters.
- **Content Curator** – Chrome extension for YouTube analytics, tracking, bookmark and group management, with cloud sync.
